

On the Subject of Maintenance

How to repair your car. Step 1: Call a mechanic. There is no step 2...

The module consists of a number plate, a job scroller, a fix button and a memo with the number of jobs that require completion: 2, 3 or 4.

Use the number plate tables to calculate information about the car.

Use the Venn diagram and Ordering Rules to determine the number of jobs that require maintenance and the order in which they should be completed.

Number Plate

The number plate is broken down into three parts.
The first two letters tell you the model of the car.

Plate Ref	Model	Multiplier	Plate Ref	Model	Multiplier
HN	Honda	2	AD	Audi	7
RN	Renault	3	BN	Mercedes-Benz	8
FD	Ford	4	PC	Porsche	9
MA	Mazda	5	FR	Ferrari	10
BM	BMW	6	-	-	-

The first two numbers tell you when the car was manufactured. New UK number plates are released in March and September. To find the car's age, multiply the base value of the year by the model multiplier.

Plate Ref	Manufactured	Base Value	Plate Ref	Manufactured	Base Value
51	Sept 2001	£50	55	Sept 2005	£90
02	Mar 2002	£60	06	Mar 2006	£100
52	Sept 2002	£60	56	Sept 2006	£100

11	Mar 2011	£250	66	Sept 2016	£700
61	Sept 2011	£250	17	Mar 2017	£800
12	Mar 2012	£300	67	Sept 2017	£800
62	Sept 2012	£300	18	Mar 2018	£900
13	Mar 2013	£400	68	Sept 2018	£900

14	Mar 2014	£500	69	Sept 2019	£1,000
64	Sept 2014	£500	–	–	–

The final three letters of the number plate are random. The final letter will tell you the insurance company.

N.B. the letters I, O, Q & Z are never used in UK number plates.

Write-off Status & Insurance Perks

Occasionally, a car may be deemed to be a write-off. If this is the case, irrespective of how many or which jobs are required, select the "Write-off" option in the job scroller.

A car is considered a write-off if either of the following conditions are met:

- It is a pre-2004 Honda.
- The cost of maintenance that is not covered by the insurance is greater than the value of the car.

Insurance companies may cover different elements of the maintenance. The maintenance must still be undertaken even if its cost is covered.

Oil change	Hastings Direct, Swift & AA	Windscreen chip	Axa, RAC, Swinton & AA
One tyre	Swift & Aviva	Windscreen replacement	RAC

Ordering Rules

All jobs should be done from cheapest to dearest with the following exceptions:

- Oil change and Wash must be done last. If both are required, do the Oil change before the Wash.
- Windscreen chip and Brake fluid change must be done first. If both are required, do the Windscreen chip before the Brake fluid change.
- Heavy jobs must be done before any tyre work, but not before any other cheaper work.
- Jobs covered by insurance must be ordered according to their "retail" price.
